Qualification

Certification

KSA is certified in accordance with **DIN EN ISO 9001:2008 and DIN EN 9100:2003** for controlled shot peening and process automation.

Our custom-made solutions also naturally meet the strict specifications established by **NADCAP** for on-site processes.

In addition, we constantly prove the high quality of our work by fulfilling the requirements stipulated by our customers on an everyday basis.

Our aim is to provide you with complete customer satisfaction, from the moment you make your first enquiry through to delivery, installation and after-sales support.
